

PinwheelPay Magento 2.x Plugin Installation Documentation

Tested on Magento 2.x version

1. Unzip PinwheelPay plugin and put it into app/code folder.
2. Enable PinwheelPay Payment module using below steps:

2.1 Magento admin:

1. Login into Magento admin panel using your magento credential.
2. Navigate Stores => Configuration => Advanced => Advanced
3. Enable PinwheelPay Payment Gateway
4. After enabling, remove Cache

2.2 PinwheelPay Merchant Configuration:-

1. Navigate Stores => Configuration => Sales=>Payment Methods=> PinwheelPay Payment Gateway
2. Here you can setup merchant information with advance parameters.
3. After setup merchant information remove cache

2.3 Finishing up

1. Now you can see PinwheelPay Payment method on checkout page to purchase product.
2. You can check log functionality in magento/var/log/system.log
